Re: Reply Comments related to DA 12-1863, IB Docket No. 12-340, RM-11683

Dear Secretary Dortch:

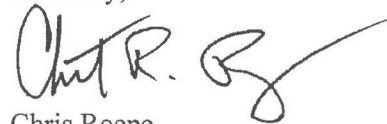

Thank you for the opportunity to submit comments on behalf of LightSquared and its ongoing efforts to build out a new, competitive mobile broadband network. I have recently been made aware of the company's activities and I want to register my support for the license modification application with the Commission.

I believe communities all over Missouri can benefit from LightSquared's proposal to build a nationwide mobile broadband network. By unleashing more spectrum into the marketplace, the FCC would spur new capital investments, create jobs, and drive economic growth. As importantly, LightSquared's plan to be a wholesale-only low-cost provider of a new 4G LTE wireless service would enable many consumers and small business owners like me to benefit from better coverage and lower costs.

I want to urge the Commission to approve LightSquared's license modification, which will enable the company to launch its network and provide greater choices for small business owners and consumers.

Thank you.

Sincerely,

Chris Roepe
